PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science (AI/ML) student at CMR University (CGPA: 8.5/10) with a strong foundation in Java, Python, SQL, HTML, CSS, and JavaScript. Skilled in Object-Oriented Programming, DBMS, Data Structures & Algorithms, and developing scalable academic software projects. Passionate about building robust applications with clean code practices. Actively seeking Software Development, Java Backend, Full Stack, or SDE Internship opportunities to apply technical expertise and drive innovation.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering (AI/ML) CMR University, Bengaluru | CGPA: 8.50/10 | Aug 2023 – May 2027

Senior Secondary (Class XII) – RD COMP PU College, Chikodi | 81.17% | 2023

Secondary (Class X) – B.M.H.S High School | 82.4% | 2021

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL, JavaScript

Web Technologies: HTML5, CSS3, Responsive Design, Front-end Development

Core Competencies: Object-Oriented Programming (OOP), Database Management Systems (DBMS), Data Structures & Algorithms, File Handling, Recursion

AI/ML Concepts: Natural Language Processing (NLP), Text Preprocessing, Supervised Learning

Developer Tools & Platforms: Git, GitHub, VS Code, Eclipse IDE, Jupyter Notebook, MySQL, Version Control

Soft Skills: Problem-Solving, Communication, Logical Thinking, Adaptability, Team Collaboration, Time Management

PROJECTS

Grammar and Spell Corrector / Python, NLTK, NLP

- Engineered an advanced NLP-based application to intelligently detect and correct grammar and spelling mistakes in real-time
- Implemented sophisticated text preprocessing and tokenization techniques using NLTK library for accurate text analysis
- Rigorously validated the solution on 200+ test sentences achieving high accuracy with comprehensive performance metrics

Student Attendance Recovery System / Java, SQL, DBMS, Database Design

- Architected a robust, scalable database-driven attendance management system with complete lifecycle management
- Implemented enterprise-grade authentication mechanisms, comprehensive data validation protocols, and detailed reporting features
- Optimized record retrieval efficiency and completely eliminated manual data-entry errors through automated validation

CERTIFICATIONS & CONTINUOUS LEARNING

- Python Programming – Coursera (2025)
- SQL for Beginners – Scaler (2025)
- Introduction to AI & Machine Learning – Great Learning (2024)
